SUMMARY

I am a graduate of Industrial Engineering from Istanbul Medipol University, with hands-on experience in SAP CO and procurement processes. I am skilled in process improvement, data analysis, and supply chain management, and I possess strong knowledge in ERP systems, cost accounting, and project execution. My career goal is to build a strong career in business analysis, supply chain, and operations management by contributing to organizations' decision-making processes through a data-driven and analytical approach. I strive to take part in innovative projects, enhance my professional skills, and improve operational efficiency in dynamic work environments.

PROFESSIONAL EXPERIENCE

TNC GROUP COMPANIES & SOCIAL OFFICE

Now 2025 – Dec 2025

Information Technology Intern

- Actively participated in projects within the Information Technology department.
- Received technical training and completed practical applications in **Excel**, **Photoshop**, **AutoCAD**, and **Python**.
